**Attachments:** RE: [BULK] form b endorsement

Bill Foulds,  
EPA has contacted me in regards to the monitoring well we talked about a few weeks ago.  
The e-mail with the site pictures and the project plans is attached.

Anhtu would like to set up a field meeting to expose the well and determine if the well needs to be abandoned and a new one drill or if the well can be saved  
I think the meeting should include the contractor the inspector and EPA as a minimum.

What time work best for you?

Dan England  
City of Modesto

**Subject:** Modesto Well

Hi Dan –

It was a pleasure speaking with you just now. I am hopeful that we will be able to resolve the issue regarding the paved over well. As I mentioned on the phone, I'd like to go out to the site to look at the well and possibly determine if the well is still in usable condition. Could you possibly put me in contact with the contractor and we can work on scheduling a date.

Thanks,

---
